Consultants

# About us

**Cengiz Armutlu**  
Industrial Engineer  
Licenced AC Engineer  
Owner, Senior Consultant

The Founder and Senior Consultant Cengiz Armutlu has started his aviation career in 1991 as a licensed Avionic engineer and worked more than 17 years actively in the Line and Base maintenance for Istanbul Airlines, Pegasus Airlines and Lufthansa Technik AG. He holds an EASA Part 66 Cat A/B1/B2/C License and qualified for B737CL/NG and A320 Family aircraft. Moreover, he undertook studies in industrial engineering to strengthen his aviation skills from a management, organizational and commercial perspective and graduated from the University of Applied Sciences Wiesbaden (now University of Applied Sciences Rhein Main) in 2007 as an industrial engineer (Diplom Wirtschaftsingenieur). Cengiz subsequently undertook a role as Senior Project Manager in the Aircraft Transition Department within LHT, thereby managing many internal and third-party client aircraft transition projects until 2014. Cengiz then became a Technical Operations Fleet manager for LHT Maintenance International GmbH, serving as the Fleet Manager and Head of the Maintenance Planning, Archive, and Warehouse Departments in Bangkok for a client Airline that operated 30 aircraft and three different type of fleet. Cengiz switched companies at the end of 2017 and became the Accountable Manager of Azurair GmbH and its Part 145 organization. After the liquidation of Azurair GmbH in May 2019, he decided to use his many years of aviation experience to establish his own business, Aeromutlu Aviation Services.

Aeromutlu Aviation Services is on duty with its worldwide experienced pool of Aviation Consultants and cooperation partners for the client projects.

# Aviation Services

**Aircraft Transition Services (Lease-In and Lease-Return Support) for Operators and Lessors:**

Aeromutlu Aviation Services provides aircraft transition support to both operators and lessors through a variety of technical assistance services, such as pre-purchase/lease assessment, physical inspection, record review, transition layover representation, and/or transition project management, to ensure that the client has a smooth and cost-effective transition period.

**Aircraft Physical Inspection and Reporting:**

Aeromutlu Aviation Services can provide the necessary aircraft physical inspections and reporting for clients who plan to buy or lease an aircraft, need to repossess, or have novated leases, such that they know the current physical status of the asset.

**Aircraft Document Inspection, Sorting, and Scanning:**

Aeromutlu Aviation Services can provide complete and high-quality documentation services to the client as needed, with the documentation sorted, scanned, and delivered to the client in the requested format, thereby reducing the stress and costs during aircraft transition or operation.

**Aircraft Base Maintenance Representation:**

Aeromutlu Aviation Services can provide experienced and qualified staff for maintenance layovers (e.g., planned heavy maintenance, modifications, or painting), serving as client representatives who inspect the entire maintenance process, regularly report to the client regarding the progress, and provide client service regarding technical decisions and the clarification of any issues.
